

Resurfacing Treatments

Resurfacing treatments are the most clinical and aggressive in addressing your skin care concerns. Our resurfacing treatments use:

- ~ Glycolic acid from sugar cane
- ~ Lactic acid from sour milk
- ~ Salicylic acid from sweet birch bark, willow bark, wintergreen

These deeply exfoliating solutions are applied to the skin and cause dead and damaged skin cells to become “unglued” from the surface of the skin and eventually flake or peel off. The newly revealed skin is smoother, lighter, brighter and tighter.

Wrinkle Lift - Level 1 60 minutes for your visit \$72
Give aging skin a lift

This ultra-resurfacing glycolic and retinol enhanced treatment exfoliates dead damaged surface skin cells, leaving skin firmer and healthier. Visibly reduces the appearance of fine lines giving you a glowing youthful radiance.

Lightening Lift - Level 1 60 minutes for your visit \$72
Uneven skin tone and superficial brown spots?

This mega-lightening treatment gently blends lactic acid and a mixture of lightening and brightening agents to reduce sun spots, brown spots and the redness caused by rosacea. Your skin will appear lighter, smoother and refreshed.

Acne Lift - Level 1 60 minutes for your visit \$72
Suffer from oily skin and frequent breakouts?

Beta hydroxy and alpha hydroxy acids help reduce oiliness and unclog pores as well as resurface and smooth the skin. This treatment delivers healthier, clearer skin.

Level 2 Lifts 60 minutes for your visit \$82

Four powerful enhancements are added to our level 1 treatments for deeper correction - Retinol to tighten the skin, Kojic for lightening and brightening, Vitamin C for cell protection and Anti-Oxidants for restoring, regenerating and balancing the skin.
